CAREER OBJECTIVE

Aspiring Software Engineer with strong problem-solving skills and hands-on experience building AI-powered and full-stack web applications. Proficient in Data Structures & Algorithms, React, Node.js, TypeScript, and modern web technologies. Seeking opportunities to develop scalable software solutions while contributing to innovative engineering teams.

EDUCATION

B.Tech in Computer Science and Engineering , Sreyas Institute of Engineering and Technology, Hyderabad Current CGPA: 8.6	2023 – 2027
Intermediate (MPC) , Shivani Junior College, Hanamkonda Percentage: 95.3%	2021 – 2023
SSC , ZPHS High School, Huzurabad GPA: 10.0	2021

TECHNICAL SKILLS

Programming Languages

- C
- Python
- Java
- JavaScript

Web Technologies

- HTML
- CSS
- React.js
- Node.js
- Express.js
- TypeScript

Core Competencies

- Data Structures and Algorithms (DSA)
- REST API Development
- Responsive Web Design
- Authentication & Authorization
- Real-Time Web Applications

Database & Tools

- MongoDB
- MySQL
- Git
- GitHub
- Socket.io

CERTIFICATES

NPTEL – Cloud Computing

- Completed an NPTEL-certified course on cloud computing fundamentals
- Learned basic cloud service models and deployment concepts

Hackathon Participation Certificate

- Participated in a college-level hackathon and collaborated in a team environment

IoT Participation Certificate

- Gained foundational knowledge of Internet of Things (IoT) concepts
- Worked with basic IoT tools and applications

EXTRACURRICULAR ACTIVITIES

Member, TEDx Event

- Contributed to event coordination and team collaboration

Sreyas Institute of Engineering and Technology

PROJECTS

Full-Stack Real-Time Chat Application

- Developed a full-stack real-time chat application with secure based authentication and authorization.
- Implemented instant messaging functionality using Socket.io with online/offline user presence indicators.
- Integrated image uploads using Cloudinary and welcome email functionality using Resend.
- Designed a modern responsive UI using React, Tailwind CSS, and DaisyUI.
- Built REST APIs for authentication and messaging features with Express.js and MongoDB.

Predictive Text NLP Engine

Tech Stack: Python, NLTK, Machine Learning, HTML, CSS, JavaScript

- Built an AI-powered next-word prediction system using advanced N-gram language models.
- Implemented real-time text prediction and autocomplete suggestions.
- Applied Natural Language Processing concepts for text analysis and prediction accuracy.
- Improved understanding of statistical language modeling and NLP workflows.

ResumeIQ – AI Resume & Career Analyzer

- Developed an AI-powered Resume & Career Analyzer that evaluates resumes against job descriptions to generate ATS compatibility scores and personalized resume feedback.
- Built intelligent career analysis modules to extract technical skills, recommend suitable software roles, identify skill gaps, and generate personalized learning roadmaps.
- Designed an AI-powered Interview Preparation system that creates resume-specific technical, behavioral, and project-based interview questions with guided answer suggestions.
- Implemented responsive dashboards, PDF resume preview, modern UI components, and integrated AI services using React, TypeScript, Tailwind CSS, and Puter AI.

AREAS OF INTEREST

- Full-Stack Web Development

- Artificial Intelligence
- Software Engineering
- Cloud Computing
